WHY ITS INTEGRATOR?

Experience and Expertise

With over 3 decades of experience Adapt IT Education has developed deep industry knowledge and expertise to address the needs of higher education.

Proven Track Record

Adapt IT Education is ISO 9001:2015 certified and has relationships with clients that span over decades. A testament to the quality of service we offer.

Cross-border Coverage

In several Sub-Saharan African countries, Adapt IT Education has established itself as an expert and trustworthy provider of education management software. The Botswana Open University, National University of Ireland, TCS, University of Eswatini, and the National University of Lesotho are just a few of the institutions with which we collaborate.

Reliable Support

Proven remote support model, with local support available through offices in Africa, Europe and Australasia.

**A LEADER IN HIGHER EDUCATION
ERP SYSTEMS AND SOLUTIONS**

Achieve more.

In this new digital age, change is constant, your students are moving at the same pace as culture and technology, competition is tightening, budgets are shrinking and there are staff shortages. And despite these challenges you are expected to deliver more with less, you're expected to be engaging, responsive, and make data-informed decisions. To do all of this you need tools on your side that can either create or improve automated processes to meet the demands of running a modern and successful institution.

Adapt IT Education

We are a division with a long and rich history spanning over 3 decades, our business provides robust Administrative ERP Software solutions. Solutions that are already trusted by 60 Higher Education and TVET institutions in South Africa as well as 200 institutions around the globe.

Targeted Markets

- » Public & Private Higher Education
- » TVET Colleges

ITS Integrator

Our flagship product the ITS Integrator is built-in with functionalities aligned to the modern digital age. The ITS Integrator is a full package for universities and TVET Colleges looking for efficient management of the student and employee life cycle.

By integrating all business units into one comprehensive system, the ITS Integrator enhances operations in the back-office, the student experience through self-help services as well as reporting capabilities and superior record keeping.

Complementary Software
