

PAYGATE

A trusted, mobile-friendly, and secure epayment platform for institutions to facilitate online payments.

A trusted and secure online payment aggregator used by millions of South Africans daily, PayGate has been seamlessly integrated into the payment solutions of learning institutions by Adapt IT. With PayGate, our customers can offer learners, funders, and students seamless access to multiple payment methods through a single integration.

With PayGate, we make it easy for you to accept payments and your students to make them. Cards are accepted from all major global credit issuers, and third-party payment applications are also supported. With its mobile-friendly, secure interface and international partnerships, PayGate ensures that payments can be made from anywhere and on any device.

PAYGATE INFRASTRUCTURE

- » With a simple and seamless single integration to PayWeb, your users can immediately access multiple online payment methods through a secure, hosted payment page.

OUR FOOTPRINT

- » PayGate is currently being used at the Richfield Graduate Institute of Technology in South Africa.

KEY FEATURES

The General Data Protection Regulation Ready (GDPR)

Provides the highest level of security and standards to protect the privacy and data of users.

Payment Card Industry Data Security Standard (PCI DSS)

Fully PCI DSS Level 1 Compliant, you can rest assured that when adding PayGate to your payment methods, you protect the cardholder's data. This delivers you and those transacting through your system peace of mind.

Fraud Management

PayGate automatically identifies and controls potential online fraud instances using only the latest fraud management techniques.

With customised and ongoing risk monitoring systems and procedures, it reduces the potential for fraudulent activities and puts a stop to chargebacks.

BENEFITS

- » Settlements are paid directly and in real-time
- » Cost-effective
- » Accept international and local payments
- » Simple to install and integrate with pre-existing systems
- » Adheres to global security standards
- » Offers APIs for seamless and simple integration into existing systems

CUSTOMER REVIEW

"Our Institute can now securely and effectively make and receive payments locally and internationally, thanks to PayGate. A deal-breaker for RGIT was undoubtedly the freedom and time to concentrate on other business processes while being confident that the financial basics were solidly in place."

Zane Ramundlall (CIO)
Richfield Graduate Institute of Technology

ABOUT ADAPT IT - EDUCATION

With over 33 years of experience in the education sector, our Adapt IT Education division provides a cloud-ready and cost-effective portfolio of fully integrated Education, Enterprise Student, Finance and HR/Payroll (ERP) Management Systems to institutions of higher learning around the world.

Our highly scalable web-based, mobile-friendly, innovative student application and registration platforms allow tertiary institutions better to manage applications, student funding, and accounts. Using the Adapt IT learning solutions, our customers can optimise their IT infrastructure and create a single view of the institution from students to lecturers, payroll, finance, HR, and learning modules.

Our strength lies in our ability to drive institutional and individual performance in a secure, easy-to-use, cost-effective, and compliant manner. Today we service over 2 million students in more than 1000 public and private institutions in South Africa, Ireland, Botswana, Mauritius and Kenya, no matter the organisation's size, or the number of students it serves.
