ADAPT IT EDUCATION IS THE BEST SUITED PARTNER FOR YOUR INSTITUTION

ABOUT ADAPT IT AND THE ITS INTEGRATOR SYSTEM

Adapt IT Education, has a rich history spanning 33 years in offering a comprehensive administrative ERP software solution for the higher (HE) and Technical and Vocational Education and Training (TVET) sectors to 60 institutions and 200 institutions worldwide using all our education student management offerings. We have an in-depth understanding of the intricate and complex challenges faced by these institutions as they prepare students for their future role in society and help them to Achieve more.

Adapt IT Education, an ISO 9001 : 2015 certified division, has been filling this Higher Education niche sector since it was established in 1986. In the past 33 years Adapt IT has not only captured 75% of the market share in South Africa but has also expanded to other African and European universities with the ITS Integrator System.

Our education sector clients rely on us to solve complex problems which we do by designing, developing, implementing, maintaining and supporting a wide range of software products and services. With our ITS Integrator ERP solution, together with the broad range of technology-based services as well as ad-on products relevant to the education sector, we are able to unlock even higher levels of performance in our customers. Adapt IT is also the authorised distributor of the world-renowned CELCAT Timetabler system for the automated generation of class and examination time tables. This system is fully integrated with the ITS Integrator solution.

ADAPT IT EDUCATION - KEY MILESTONES

- Continuous functionality Enhancements of 4.1
- ITS Integrator 4.1 implementation at 7 institutions
- Acquisition of ICAS® Software for small private and public institutions

- Jaspersoft Reporting Software

WHAT WE DO

- We are an experienced specialist software business solutions provider with industry focused teams.
- Development of new system modules in accordance with customer needs and requirements in support of our ISO 9001: 2015 quality certification, development and alignment with accepted best practice standards. Integration methods vary from file transfers to fully fledged system API's deployed as web services.
- Customization of existing ITS Integrator systems to enhance functionality to meet specific client requirements. Enhancements are carried forward with system upgrades to protect the investment of the client.
- System integration between ITS Integrator and 3rd Party software systems. Data and business are part of our core solution offerings including IOT and related leading technologies.
- We assist with data correction at database level to rectify such situations. Care is taken to preserve audit trails, and before and after images of data is made available to the client for auditing purposes.
- Customised software maintenance contracts are available to clients to ensure that customised software is fully maintained and is upgraded to later releases of the ITS Integrator product suite. Compliance with the latest infrastructure requirements can also be included.

BENEFITS OF PARTNERING WITH ADAPT IT

- Statutory Requirements Supported - Deep functionality supports the specific statutory and functional requirements unique to educational institutions.
- Comprehensive Student Management - Including applications and admissions, student bursaries, registration, study records and assessments, and graduation and alumni management.
- Diverse Study and Course Management - Ability to manage part-time, full-time or flexible study, short courses and distance learning programs.

- Automate Class and Examination Timetables - Interfaces with CELCAT Timetabler products distributed by Adapt IT Timetabling.
- Mobile Access to Timetable Information - Integration with ITS Mobile allows students access to vital timetable information on the go, anywhere, anytime.
- Best-of-breed implementation approach for seamless integration.
- Reliable Support - Proven remote support model, with local support available through offices in Africa, Europe and Australasia
- Adaptable and Scalable - Built on proven Oracle technology that is adaptable and scalable.

ADAPT IT – THE BEST SUITED PARTNER FOR YOUR INSTITUTION

- We support 32 Universities that are users of the ITS Integrator Software System.
- We support 21 TVET Colleges that are users of the ITS Integrator Software System.
- Over 33 years of experience in the university sector in South Africa as well as African and European Universities.
- Specialists in Higher Education sector knowledge and experience.
- Full ERP system that includes Student Management, Financial Management, Human Capital Management (including Payroll) but can be implemented as “best of breed” e.g. Student and Student Financial Management Systems.
- Ensures that our products fully support statutory reporting requirements and interfaces to statutory agencies in the countries in which Adapt IT operates.
- ITS Integrator is fully configurable via parameters and localised development per client which allows for extensibility of the system as per institutions requirements.
- Interfaces with 3rd Party products used by universities to enhance business processes.
- Dedicated sector specific support desk.
